BOX INCASSO
BUILT-IN BOX

PER MISCELATORE VASCA-DOCCIA A 1 O 2 VIE
FOR 1 OR 2-WAY BATH-SHOWER MIXER

180MB

180MB

Box incasso per miscelatore vasca-doccia a 1 o 2 vie.
Built-in box for 1 or 2-way bath-shower mixer.

Questa parte a incasso può essere abbinata a tutti i seguenti modelli di miscelatore per doccia con una o nessuna deviazione, indipendentemente dalla tipologia di cartuccia e di leva.

La materia prima utilizzata per il contenitore della box, ad alta densità, è stata appositamente selezionata per essere pratica al taglio, durevole nel tempo, protettiva, resistente e insonorizzante.

Grazie allo spessore ridotto, è possibile l'installazione in cartongessi e pareti in legno. Dopo l'installazione, il prodotto resta facilmente ispezionabile nel tempo.

This built-in part can be combined with all the following shower mixer models with 1 or none deviation, regardless of the type of cartridge and lever.

The high-density raw material used for the box container has been specially selected to be easy-cutting, long-lasting, protective, resistant and soundproof.

Thanks to the reduced thickness, installation in plasterboard and wooden walls is possible. After installation, the product will always be easy to inspect over time.

WALLBOX ORIZZONTALE PER MISCELATORE INCASSO LAVABO HORIZONTAL WALL BOX FOR BUILT-IN BASIN MIXER

565WB

1 VIE
WAYS

PER MISCELATORE LAVABO CON DUE PIASTRE SEPARATE O UNA PIASTRA UNICA
FOR BUILT-IN BASIN WITH TWO SEPARATE PLATES OR ONE SINGLE PLATE

565WB

Box incasso per miscelatore lavabo con due piastre separate o una piastra unica.
Built-in box for basin with two separate plates or one single plate.

Utilizzando il codice 565WB - box incasso ORIZZONTALE per miscelatore lavabo - potranno essere poi montate tutte le combinazioni a singola o doppia piastra a pagina successiva.

Grazie alla guarnizione perimetrale di tenuta, le WBOX garantiscono un'impeccabile impermeabilizzazione delle connessioni e delle parti incassate. In caso di anomalie dovute a installazioni o allacciamenti non corretti, l'acqua viene immediatamente segnalata da un trafilamento frontale, evitando qualsiasi infiltrazione all'interno della muratura e offrendo un sistema di sicurezza che permette un intervento tempestivo e mirato.

By using the code 565WB - HORIZONTAL built-in box for basin mixer - all the single or double-plate combinations in the next page can be then mounted.

Thanks to the perimeter sealing gasket, the WBOX ensures exceptional waterproofing of connections and built-in components, providing long-lasting reliability and peace of mind. In the unlikely event of an issue due to incorrect installation or connections, water is promptly and visibly directed to the front, avoiding any risk of infiltration into the wall structure. This innovative safety feature guarantees effortless detection and allows for quick, targeted intervention, ensuring complete confidence in the product's performance and durability.

WALLBOX VERTICALE VASCA-DOCCIA VERTICAL BATH-SHOWER WALLBOX

173WBP2

2 VIE
WAYS

PER MISCELATORE VERTICALE VASCA-DOCCIA CON
DEVIATORE A DISCHI CERAMICI, 2 VIE E 2 POSIZIONI
VERTICAL BATH-SHOWER MIXER WITH CERAMIC
DISC DIVERTER, 2-WAY AND 2-POSITIONS

173WBP2

Box incasso per miscelatore verticale vasca-doccia a dischi ceramici, a 2 vie e 2 posizioni.
Vertical Built-in box for 2-way and 2-positions ceramic disc bath-shower mixer.

Utilizzando il codice 173WBP2 - box incasso VERTICALE per miscelatore vasca doccia con deviatore a 2 vie a dischi ceramici e 2 posizioni - possono essere gestite tutte le combinazioni a due uscite.

Alcune delle possibili combinazioni:

- soffione doccia + doccetta
- bocca a parete + saliscendi
- bocca per vasca + soffione
- bocca per vasca + doccetta
- soffione + getti doccia

Grazie alla guarnizione perimetrale di tenuta, le WBOX garantiscono un'impeccabile impermeabilizzazione delle connessioni e delle parti incassate. In caso di anomalie dovute a installazioni o allacciamenti non corretti, l'acqua viene immediatamente segnalata da un trafilemento frontale, evitando qualsiasi infiltrazione all'interno della muratura e offrendo un sistema di sicurezza che permette un intervento tempestivo e mirato.

By using the 173WBP2 - VERTICAL built-in box for bath-shower mixer with 2-way ceramic disc diverter and 2 positions - all two outlets solutions can be combined.

Some of the possible combinations include:

- shower head + hand shower
- wall spout + slide rail
- bathtub spout + shower head
- bathtub spout + hand shower
- shower head + body jets

Thanks to the perimeter sealing gasket, the WBOX ensures exceptional waterproofing of connections and built-in components, providing long-lasting reliability and peace of mind. In the unlikely event of an issue due to incorrect installation or connections, water is promptly and visibly directed to the front, avoiding any risk of infiltration into the wall structure. This innovative safety feature guarantees effortless detection and allows for quick, targeted intervention, ensuring complete confidence in the product's performance and durability.

Box incasso per miscelatore orizzontale vasca-doccia a dischi ceramici, a 3 vie e 3 posizioni.
Horizontal Built-in box for 3-way and 3-positions ceramic disc bath-shower mixer.

Utilizzando il codice 773WBP3 - box incasso ORIZZONTALE per miscelatore vasca doccia con deviatore a 3 vie a dischi ceramici e 3 posizioni - possono essere gestite tutte le combinazioni a tre uscite.

Alcune delle possibili combinazioni:

- saliscendi + soffione doccia con getti a pioggia + a cascata
- doccetta + soffione doccia con getti a pioggia + a cascata
- bocca di erogazione + saliscendi + soffione
- soffione doccia + getti + doccetta

Grazie alla guarnizione perimetrale di tenuta, le WBOX garantiscono un'impeccabile impermeabilizzazione delle connessioni e delle parti incassate. In caso di anomalie dovute a installazioni o allacciamenti non corretti, l'acqua viene immediatamente segnalata da un trafilamento frontale, evitando qualsiasi infiltrazione all'interno della muratura e offrendo un sistema di sicurezza che permette un intervento tempestivo e mirato.

By using the 773WBP3 - HORIZONTAL built-in box for bath-shower mixer with 3-way ceramic disc diverter and 3 positions - all three outlets solutions can be combined.

Some of the possible combinations include:

- sliding rail + shower head with rain jet and waterfall jet
- hand shower + shower head with rain and waterfall jet
- wall mounted spout + sliding rail + shower head
- shower head + shower jets + hand shower

Thanks to the perimeter sealing gasket, the WBOX ensures exceptional waterproofing of connections and built-in components, providing long-lasting reliability and peace of mind. In the unlikely event of an issue due to incorrect installation or connections, water is promptly and visibly directed to the front, avoiding any risk of infiltration into the wall structure. This innovative safety feature guarantees effortless detection and allows for quick, targeted intervention, ensuring complete confidence in the product's performance and durability.

WALLBOX ORIZZONTALE VASCA-DOCCIA HORIZONTAL BATH-SHOWER WALLBOX

873WBP3**3** VIE
WAYS

PER MISCELATORE ORIZZONTALE VASCA-DOCCIA 3 VIE CON DEVIATORE A DISCHI CERAMICI A 3 POSIZIONI. PRESENTA UNA DELLE DUE USCITE IN LINEA E DEFINITA NELL'INTERASSE.

HORIZONTAL BATH-SHOWER MIXER WITH 3-WAY CERAMIC DISC DIVERTER AND 3 POSITIONS, ENGINEERED WITH ONE OF THE TWO OUTLETS ALIGNED IN THE SAME ROW AS THE MIXER UNIT, MAINTAINING A FIXED AND ACCURATE SPACING.

**873WBP3**

Box incasso per miscelatore orizzontale vasca-doccia a dischi ceramici, a 3 vie e 3 posizioni.
Horizontal Built-in box for 3-way and 3-positions ceramic disc bath-shower mixer.

Utilizzando il codice 873WBP3 - box incasso ORIZZONTALE per miscelatore vasca doccia con deviatore a 3 vie a dischi ceramici e 3 posizioni - possono essere gestite tutte le combinazioni a tre uscite.

Alcune delle possibili combinazioni:

- doccetta + soffione + cascata soffione
- doccetta + soffione + getti
- bocca di erogazione + soffione + cascata
- bocca di erogazione + doccetta + soffione

Le WBOX incasso di Rubinetterie Mariani sono realizzate utilizzando i migliori materiali e tecnologie produttive high-tech. La materia prima utilizzata per i WBOX è stata appositamente selezionata per essere pratica al taglio, durevole nel tempo e protettiva.

Grazie alla guarnizione perimetrale di tenuta, le WBOX garantiscono un'impeccabile impermeabilizzazione delle connessioni e delle parti incassate. In caso di anomalie dovute a installazioni o allacciamenti non corretti, l'acqua viene immediatamente segnalata da un trafilamento frontale, evitando qualsiasi infiltrazione all'interno della muratura e offrendo un sistema di sicurezza che permette un intervento tempestivo e mirato.

By using the 873WBP3 - HORIZONTAL built-in box for bath-shower mixer with 3-way ceramic disc diverter and 3 positions - all three outlets solutions can be combined.

Some of the possible combinations include:

- hand shower + shower head + shower head waterfall
- hand shower + shower head + body jets
- wall mounted spout + shower head + shower head waterfall
- wall mounted spout + hand shower + shower head

The built-in WBOX units from Rubinetterie Mariani are produced using the premium materials and high-tech production technologies. The raw material used for WBOX has been specifically selected to be easy to cut, highly durable, and protective.

Thanks to the perimeter sealing gasket, the WBOX ensures exceptional waterproofing of connections and built-in components, providing long-lasting reliability and peace of mind. In the unlikely event of an issue due to incorrect installation or connections, water is promptly and visibly directed to the front, avoiding any risk of infiltration into the wall structure. This innovative safety feature guarantees effortless detection and allows for quick, targeted intervention, ensuring complete confidence in the product's performance and durability.
